## Installation, initial start-up and setting the bot

1) Download Bot.

2) Unzip the bot in your convenient directory

**Note:** the path to the bot should not contain "space" character.

3) Before starting the bot should download and install the following libraries from the Microsoft website:

Visual C ++ to Visual Studio 2012 (<https://www.microsoft.com/en-us/download/details.aspx?id=30679>)

Visual C ++ to Visual Studio 2013 (<https://www.microsoft.com/en-us/download/details.aspx?id=40784>)

Visual C ++ to Visual Studio 2015 (<https://www.microsoft.com/en-us/download/details.aspx?id=48145>)

4) If you have Windows 10, the following conditions must be met:

4.1) Make sure you have an increase equal to 100% (START-> CONTROL PANEL-> DISPLAY-> MAKE TEXT AND OTHER ITEMS LARGER OR SMALLER-> SET TO 100% and restart windows)

4.2) to run the file fbot \*\*\*\*. Exe Set the Windows 7 Compatibility

5) Start the game.

6) Check the settings of the game:

Screen resolution 1920x1080 / 1680x1050 / 1600x900 / 1366x768

Game Photo Filter: Vibrance

Reset Game interface to default (100% size)

7) Start Botha

Starting the bot produced file fbot \*\*\*\*\*.exe

Note: It is recommended to rename the startup file to your taste (this will complicate the detection of bot in the future).

8) If this is first run, then open settings panel (if this did not happen - press Hit Alt + 9)

9) Enter the Program Key and Email

10) Hit «Verify Key» Button

If you get answer another then «0900: Your Account active», Inform bot developers - they activate your account

11) Set up a Bot to your liking:

Language: select your preferred language.

Region: select region where you play.

Report Screen: select show on screen report in top-left corner or not.

Change Rod by Mouse/HotKey1-6. -

If you choose a mouse: Boat fishing rod will change by selecting them from your inventory. In this mode, the type and number of rods in the inventory is not important. However, leave the bot with opened the inventory window but closed character clothes window.

Hotkey1-6: in this mode, take inventory in different kinds (one kind but different grade = different kind) of fishing rods for 2 pieces and put them on the hot keys from 1 to 6

example: 2 x white rods and 2 x blue rod in your inventory and on hot keys 1- white rod, 2 - blue rod

Types of fish to catch - fish what u preferred to pick up

Bait Duration (9): bait(lure) Duration in minutes, which are mounted on the "9"

Bottle Duration (0): Food Duration in minutes, which is set to "0" button (zero)

Hooking: Hooking in milliseconds. value can be from 1600 to 1700. Allows you to customize your computer / communication channel latency undercuts to increase the fishing as "excellent"

Take relics/keys: Collect the keys and the relics, if the grade of fish set blue or above

12) Hit «Save» Button

## Use Bot

1) take inventory in fishing rods, the lure and the bottle 9 and 0, respectively

2) Get Rod in hand (hotkey 1) and Casting it.

3) Then run the bot fb\*.exe (If Win10 - set compatibility with the Win7)

4) Hit Alt + 1 to remove from pause

## Hot Keys

Alt + Esc - turn off bot

Alt + 1 - Put / remove pause

Alt + 2 - Resets the cycle shift rods

Alt + 9 - Preferences panel

## Troubleshooting

If you have any difficulty in starting or SETUP bot, you can contact the technical support at the following address: [bdo@r23.ru](mailto:bdo@r23.ru)
